## HOW TO REDUCE YOUR WEIGHT

A SIMPLE, SAFE RELIABLE WAY.

People who are overburdened with superfluous fat know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of any one suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or strenuous exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply, and get from any good druggist a box of all of Koresin capsules; take one after each meal and one before retiring at night.

Weigh yourself once a week, as to know just how fast you are losing weight, and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of koresin is absolutely harmless, is pleasant to take, and helps digestion. Even a few days treatment has been reported to show a noticeable reduction in weight. Footnote: Koresin is lighter, your work seems easier, and a lighter and more buoyant feeling takes possession of your whole being.

Every person who suffers from superfluous fat should give this treatment a trial.—Adv.

## OUR OWN PROSPERITY MAKES LIVING COSTLY

Great Wealth of Gold in Country Cause of Increased Cost of Everything, Says Mint Director.

WASHINGTON, Oct. 19.—"America's great prosperity is in itself responsible for the high cost of living," Director of the Mint von Engelken held to-day.

With more gold in its vaults, more money circulated, and the greatest export trade in history, the United States, he said, is at once reaping a golden harvest, and, at the same time, paying the piper in the high cost of living.

His explanation was: Export trade brings an unprecedented quantity of gold here. There is such a vast demand for goods that prices rise responsively. More workers than heretofore are employed, and they are getting larger wages than previously. And, while these workers supply the goods, their wages, drawn from the immense store of gold, buy more goods than before, thus helping swell the abnormal demand and the consequent price increases.

Flood of Wilson Money in St. Louis: Odds on Hughes Drop.

ST. LOUIS, Mo., Oct. 19.—Large sums of Wilson money from New York are pouring into St. Louis. The odds, formerly 1 to 5 on Hughes, have dwindled to 6 to 5 with promise of being even to-morrow. Tom Kearney, a bookmaker, wagered \$6,000 to-day for a New York broker against \$5,000 that Hughes would be elected President.

## A. D. H. GIVES ANNUAL SHOW

This Year's Entertainment Will Be Best Ever Given by Organization.

New York County Ancient Order of Hibernians will on next Saturday evening, Oct. 21, gather together at the Central Opera House, Sixty-seventh Street and Third Avenue, for their annual entertainment and ball.

The affair this year promises to surpass any event held by the organization. Arrayed in the colors of their native land, the thirty-five leading Irish dancing classes of Greater New York will be seen in competition in four-handed reels and Irish step dancing for a handsome prize.

The order is organized for the purpose of benevolence, and the affair this year will materially aid their burial and sick funds.

Air Raid Puts Water in Cow's Milk.

BERLIN, Oct. 19.—The Berliner Tageblatt declares that a London police court has absolved a dairymaid accused of watering milk. The dairymaid declared that his cows were so frightened by the Zeppelin attacks that the milk was spoiled.

## U. S. MAY SUE TO DISSOLVE THE GASOLINE COMBINE

Federal Trade Commission Turns Over to District Attorney Data Gathered on High Price of Oil.

SAN FRANCISCO, Oct. 19.—The United States Government, under the anti-trust laws, will begin in this city a suit to dissolve the alleged combination of a number of large oil companies for unlawfully fixing the price of gasoline, according to the Chronicle to-day. United States District Attorney John W. Preston has been in conference with W. H. Parry, member of the Federal Trade Commission, for several days in regard to bringing the suit.

Parry is reported to have turned over to Preston the data gathered by the commission in an exhaustive inquiry into the price of gasoline.

## Train Derailed; Engineer and Fireman Killed.
